January 2015

UPDATE ON JUDY WHITT: Judy's health continues to be up and down and she continues to be in and out of the hospital with issues. After being moved to West Tennessee Transitional Care, she had much more therapy and began to get stronger and able to stand for short periods of time with assistance. She was able to enjoy having all the children and grandchildren come during the holidays at the Care Center. It is still necessary for her care to hire sitters around the clock. The main prayer concern now is for the appointment on January 19 to meet with the oncologist concerning the recurrence of the brain tumor and for God's guidance in the next phase of treatment which will be in Jackson under the direction of staff at M. D. Anderson. She currently is experiencing more issues and is back in the hospital. She will be back to the Care Center soon but her greatest desire is just to get back home.

Please continue to pray for Judy and for Bro. Don as he continues to minister to her and to preach the gospel!

You are cordially invited to attend
