### Great Report

A few weeks ago, I was at the great Sevier Heights Baptist Church in Knoxville, TN. We had over 30 people saved that Sunday. Praise the Lord! The next day I received an email; this is part of that correspondence:

*You do not know me, but I was in attendance at Sevier Heights over the weekend. Your ability to deliver such a sermon really is amazing. As someone that can testify to hearing the "Knocking" for many years and not responding; honestly, the "Knocking" was certainly getting weaker and fainter. At 53 years old, I finally answered. The Holy Spirit had been on me for a few months and had pushed me into attending services at Sevier Heights at the invitation of some friends. I think it was my last chance. God had blessed my life for many years and I think He was about to stop trying to get my attention. Your whole sermon really hit home.*

Notice that he attended because "at the invitation of some friends". Does that speak to you? Paul said in I Corinthians 3:6: *I have planted, Apollos watered; but God gave the increase.* When we do our part, God ALWAYS does His part. What is your part?

#### UPDATE:

Judy has been having good days and bad, seeming to improve slowly. Last week, we received some bad news; the tumor in her brain has returned. The doctor at M D Anderson in Houston phoned me after he looked at the MRI and said he was confident that the entire mass was not a tumor but some of it was the results of radiation. He said she needed to do all she could to strengthen her body. When she regains strength, he will work with the hospital in Jackson, TN and begin a new series of treatment. If that goes well, he would be open to her returning to Houston for more, new treatment there. Keep praying for our family. I am trying to keep my schedule as much as I can so I can be at the hospital with Judy. God continues to bless as people are being saved!

**PS: Judy will be moved to NHC in the next 2 day to begin rehabilitation - a positive step.**
